

DINAMIS

DESIGN INNOVATION, ADDITIVE MANUFACTURING, INTELLIGENT SOLUTION

FROM DESIGN TO END PRODUCT, A COMPREHENSIVE ADDITIVE MANUFACTURING ORIENTED SOLUTION :

- Design of components and subassemblies.
- Manufacturing process optimization incorporating additive manufacturing, conventional processes and any additional operations (materials treatment, finishing...).
- Production of components and subassemblies.
- Reverse engineering for maintenance, spare parts and old machinery renovation.

FINITE ELEMENT SIMULATION / TOPOLOGICAL OPTIMIZATION / 3D SCANNER/ ALTAIR HYPERWORKS - INSPIRE - EVOLVE - ANSYS NLS - CATIA V4 AND V5 - AUTOCAD / MATERIAL AND PROCESSES EXPERTISE / PRODUCTION.
